

Gurleen Kaur Samra

gsamra23@uw.edu | (415) 572-1792 | gurleenksamra.com | Seattle, WA • San Francisco, CA

EDUCATION

University of Washington

Bachelor of Science in Informatics

September 2023 – Present

Expected Graduation: June 2027

Relevant Coursework: *Introduction to Computer Programming I, II & III, Calculus with Analytic Geometry, Statistical Concepts and Method for the Social Sciences, Data Structures and Algorithms, Design Methods, Databases and Data Modeling, Product and Information Systems Management, Client-Side Development, Server-Side Development*

EXPERIENCE

Software Engineering Intern

Santa Clara, California

NVIDIA

June 2026 - Present

- Built a Python-based evaluation harness for AI-assisted log analysis and root-cause diagnosis, scaling coverage from dozens to 200+ expert-validated historical cases and enabling blinded comparisons across multiple agent backends
- Developed deterministic and ensemble-based semantic scoring to evaluate diagnostic quality, evidence grounding, abstention behavior, execution reliability, and latency, with answer-key isolation and reproducible versioned artifacts
- Instrumented the diagnostic pipeline with payload-free, stage-level timing and error traces to distinguish model failures from ingestion, schema, grounding, and evaluation-infrastructure defects
- Created a live dashboard and CI-ready reports with per-case drilldowns, release comparisons, recurring-error analysis, and quality and runtime trends
- Extended a Kubernetes-native evaluation framework by mapping additional diagnostic systems to shared benchmarks and developing secure container and API adapters with benchmark-specific scoring

LEADERSHIP

Graphics Director

Seattle, Washington

Society of Women Engineers, University of Washington

October 2024 - Present

- Creating cohesive graphics for 50+ SWE events, growing social media engagement through consistent branding
- Designing monthly newsletters, promotional posters, and merchandise using Canva and Figma in alignment with SWE's branding guidelines
- Developing inclusive, empowering visuals to support recruitment, advocacy, and community-building efforts across UW Engineering

Electrical Department Committee Member

Seattle, Washington

E-Truck, University of Washington

October 2024 - January 2025

- Contributed to the conversion of a class 7 diesel truck to an all-electric vehicle by wiring electrical systems
- Assisted in graphing component connectivity to ensure reliable and safe energy distribution across subsystems
- Supported design reviews and collaborated with engineering peers to meet team deadlines and safety goals

SKILLS

Programming Languages:

Python, Java, JavaScript, SQL, R, HTML/CSS

Frameworks:

React

Tools:

Git, GitHub, GitLab, Azure DevOps, Figma

Spoken Languages:

Punjabi (Proficient), Hindi (Proficient), Spanish (Conversational)

PROJECTS

Mini Git - Java, Linked Lists

May 2024 - June 2024

- Built a simplified version control system in Java using linked-list-based commit histories and repository metadata
- Implemented repository synchronization and commit-history manipulation through in-place node reordering
